BCLC Alumni Highlight
Andreanna Crawford '21
Finance Major

Finance Intern, State Tax Department
Travelers Insurance
What did this internship position entail and what was your role?

In my role this summer, I completed tasks pertaining to accounting and Excel, in addition to financial tasks. One of my major projects was to create a new way for keeping track of retaliatory tax, (an insurance-specific state tax law) including the effect it has on tax payable using excel, and completing state tax returns. To add on, I adjusted Net Income for each company under the Travelers umbrella in accordance to state-by-state tax laws.
How has the BCLC helped you prepare for your internship?

The BCLC helped prepare me for this role through professional networking events that the BCLC held. This allowed me to develop confidence in my networking skills, which I applied when reaching out to various leaders in Travelers and led me to learn about everything I can do with a finance degree. The skills I have developed, with the help of the BCLC, are skills that have helped me in receiving my return offer!
One of the most exciting aspects of this internship was being part of a case competition. In teams, interns worked towards coming up with new interaction channels for Travelers and their clients to communicate when making a claim. My team ended up winning second place! I can confidently say that participating in the BCLC Target Case Competition last year helped me and my team with that success.
