BCLC Alumni Highlight
Michelle Curtis '22
Accounting Major

Pioneer Intern at Deloitte
Where did you work this summer and what was your role?

I worked at Deloitte in Hartford, CT as a Pioneer Intern. I also traveled to Atlanta, GA for training and to Westlake, TX for the Pioneer Intern Conference. The entire internship was a 6 week long program in which I was able to shadow under IT and audit. I learned about how the technology works at Deloitte and all of the cool perks the employees get. Also, being able to shadow in audit was great since I had hands on learning about accounting before even taking an accounting course.
How was the BCLC helped you to prepare for your internship?

I actually obtained my internship through the BCLC! Deloitte had a school visit exclusive for the BCLC in November of my first semester, so as an accounting major I was sure to attend. While there, I heard about the careers of accountants in both audit and tax and was sure to ask insightful questions. Afterwards I emailed the recruiter about any internship opportunities and was able to apply and be accepted as a Pioneer Intern. Through my UNIV class, I learned how to create a solid resume and LinkedIn profile. The class also taught me about networking and behavior in a professional environment which definitely helped prepare me to talk to all of the business professionals I met over the course of my internship.
