BCLC Alumni Highlight

Olivia Hanisch '21

Accounting Major

Audit Intern at Deloitte
How did the BCLC help you receive this position?

The BCLC allowed me to increase the number, as well as the quality, of connections I had within the business school and at UConn as a whole. In turn, living in this community has taught me the importance of networking and how to become more comfortable making conversation with professionals in a business environment, through experiences such as the community-specific FYE course, as well as other events. I truly believe that these things have contributed to my success in college thus far.
